## CERTIFICATE OF GOOD MANUFACTURING PRACTICE

### To whom it may concern

This is to certify that Specialbalance Ltd have registered with us as manufacturers of food supplements following Good Manufacturing Practice (GMP) for manufacturing products derived from natural sources.

GMP requires that quality checks on the various stages of manufacture and packaging are carried out as appropriate and these tests and checks are carried out in accordance with various Pharmacopoeial and other guidelines to ensure that the principles of Good Manufacturing Practice are in place.

The HFMA can confirm that the AquaSource products are manufactured and packed in a fully accredited BRC grade AA factory - which is inspected annually by a registered BRC Inspector. GMP is covered during the BRC inspection.

Signed:

Date: 7<sup>th</sup> October 2020

Expiry: 7<sup>th</sup> October 2021

Graham Keen  
Executive Director
